

Story as medicine. Voice as identity.

Three formats for festivals, summits, retreats and companies.

In English or French, from intimate groups of 10 to rooms of 150+.

The StoryHealing Circle

GUIDED ACTIVATION · 60 TO 90 MIN

A lying-down journey through personal narrative, carried by a cinematic score. Participants move from an event in their life to the meaning they gave it, and rewrite it in the body. No sharing required. The session closes at the mirror.

Participants walk away with a story they had never said out loud, and a new meaning for it.

The Energetics of Storytelling

KEYNOTE / TALK · 20 TO 45 MIN

Everyone teaches the hooks and the formulas. What actually blocks creators is the relationship they have with their own image. A talk on self-perception, authenticity and presence: how people become themselves on camera and in front of others.

People walk away knowing why they freeze, and what to do the next time the lens turns on.

Camera Confidence

INTERACTIVE WORKSHOP · 60 TO 120 MIN

The lens as a mirror of the soul. Mirror work, live camera practice and narrative reframing in pairs. Participants film each other, watch themselves back, and learn to meet their own image with warmth. Works with phones only.

Participants walk away with a felt experience of being seen without performing, and a practice to take home.
